

## Recommendations for Vitalii Gontar

Vitalii have undergone training at our farm Store Hebo, from February 2013 to July 2014.

The farm has 260 milking cows and heifer rearing.

Vitalii has performed all tasks in the barn: Milking in milking-carrousel, took care of calves and their dehorning, cleaning and dusting of beds with a machine, individual and preventive hoof care and observation in cows and heifers, cleaning of drinking vessels, feeders and veal crates.

All tasks are performed by Vitalii, responsible and with high standards.

Vitalii is very good to handle diverse tools and small machines.

Vitalii is a very stable and dedicated employee.

Vitalii are always happy and satisfied.

I give Vitalii my best recommendations.

The undersigned employer confirm that ;

Name: Vitalii Gontar

Employed from: 10.08.2017 – 01.09.2020

About the farm ; The farm has 450 ha. Of land, and a pig production with 2000 sows. Half of the piglet's production is fatten for slaughter.

The work has concluded; Work in the pig production from all angels, that means ; breeding, insemination, taking care of the sows through the pregnancy, vaccination. Taking care off the sows at faring, cutting of tail and teeth, castration, allocation of iron and vitamins, checking sick piglet's, marking of animals, maintenance of farm equipment and operation of ventilation system.

Further information's ; Vitalii is strong of nature, he is a responsibility person you can really on, he speaks English well. He shows interest in his work and always in a good mood. He has a good experience with pig production, he knows how to look at a pig and that is a very important quality. Finally I wish Vitalii all the best in the future.

**RE VITALII GONTAR**

Vitalii worked on our farm from December 2014 until October 2015.

Vitalii's duties included milking cows in a 15 a side herringbone dairy, feeding calves, animal husbandry, feeding cows, and general duties at our robotic dairy.

In the time Vitalii spent on our farm he acquired some new skills. These included learning how to ride a four wheel motorbike safely, learning how to drive a tractor, and learning how to feed out round bales of hay and silage using either tractor forks or a silage cart.

It has been a pleasure to have Vitalii as a member of our team. He was very reliable and punctual, had a good work ethic and was able to perform his assigned duties to the best of his abilities. He was always happy, polite and of good humour. His obvious affinity for animals was clearly demonstrated in his care for the cows, calves and farm dogs and cats. They will all miss him very much.

Since arriving in Australia Vitalii's English has improved considerably which is a great credit to him and is the result of the great effort he has put in to better understand, read and speak the language.

We wish Vitalii all the best in his future endeavours and hope to see him again when he is next in Australia.

To whom it may concern:

Vitalii Gontar worked for Pipestone System for 12 months at a sow farm called Nokomis. I am a Production Supervisor for Pipestone System and have had the privilege to work with Vitalii for the 12 months he spent with Pipestone system. I visited the farm Vitalii worked at once a week to ensure protocols are being followed and I help increase production through coaching and feedback. I am writing this letter to commend Vitalii on a job well done while spending time with our Company.

Vitalii is a bright and personable individual. He is self-motivated and capable of achieving any goal he sets his mind to. Vitalii has easily learned new skills during his time with Pipestone such as sow and piglet health, power washing, processing piglets, wean procedures, and sow movements. Vitalii and I have worked together and had discussions on piglet mortality strategies and overall production. The farm has benefited from Vitalii's time in numerous ways.

Pipestone System needs more employees like Vitalii. He is an asset to any company that hires him.

Sincerely,

Noah Whipkey,
